

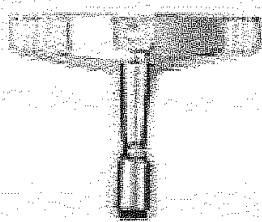

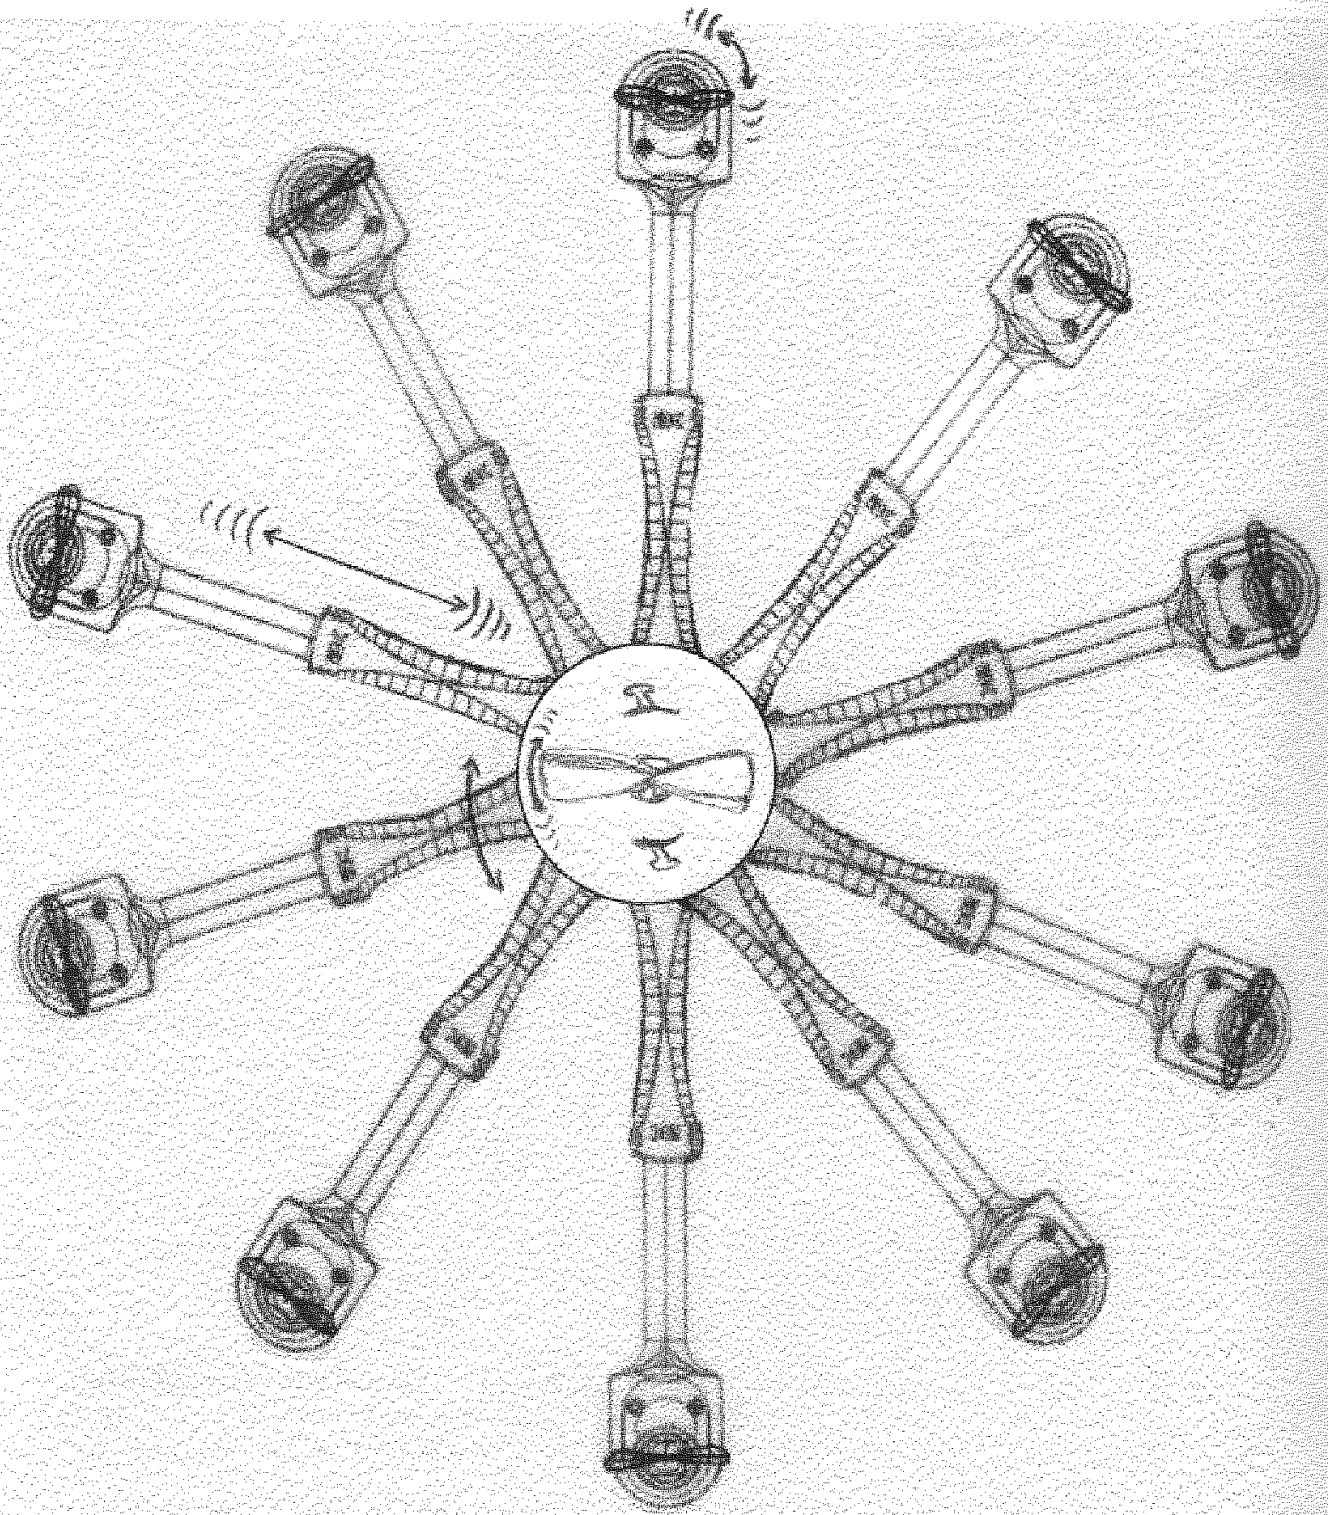

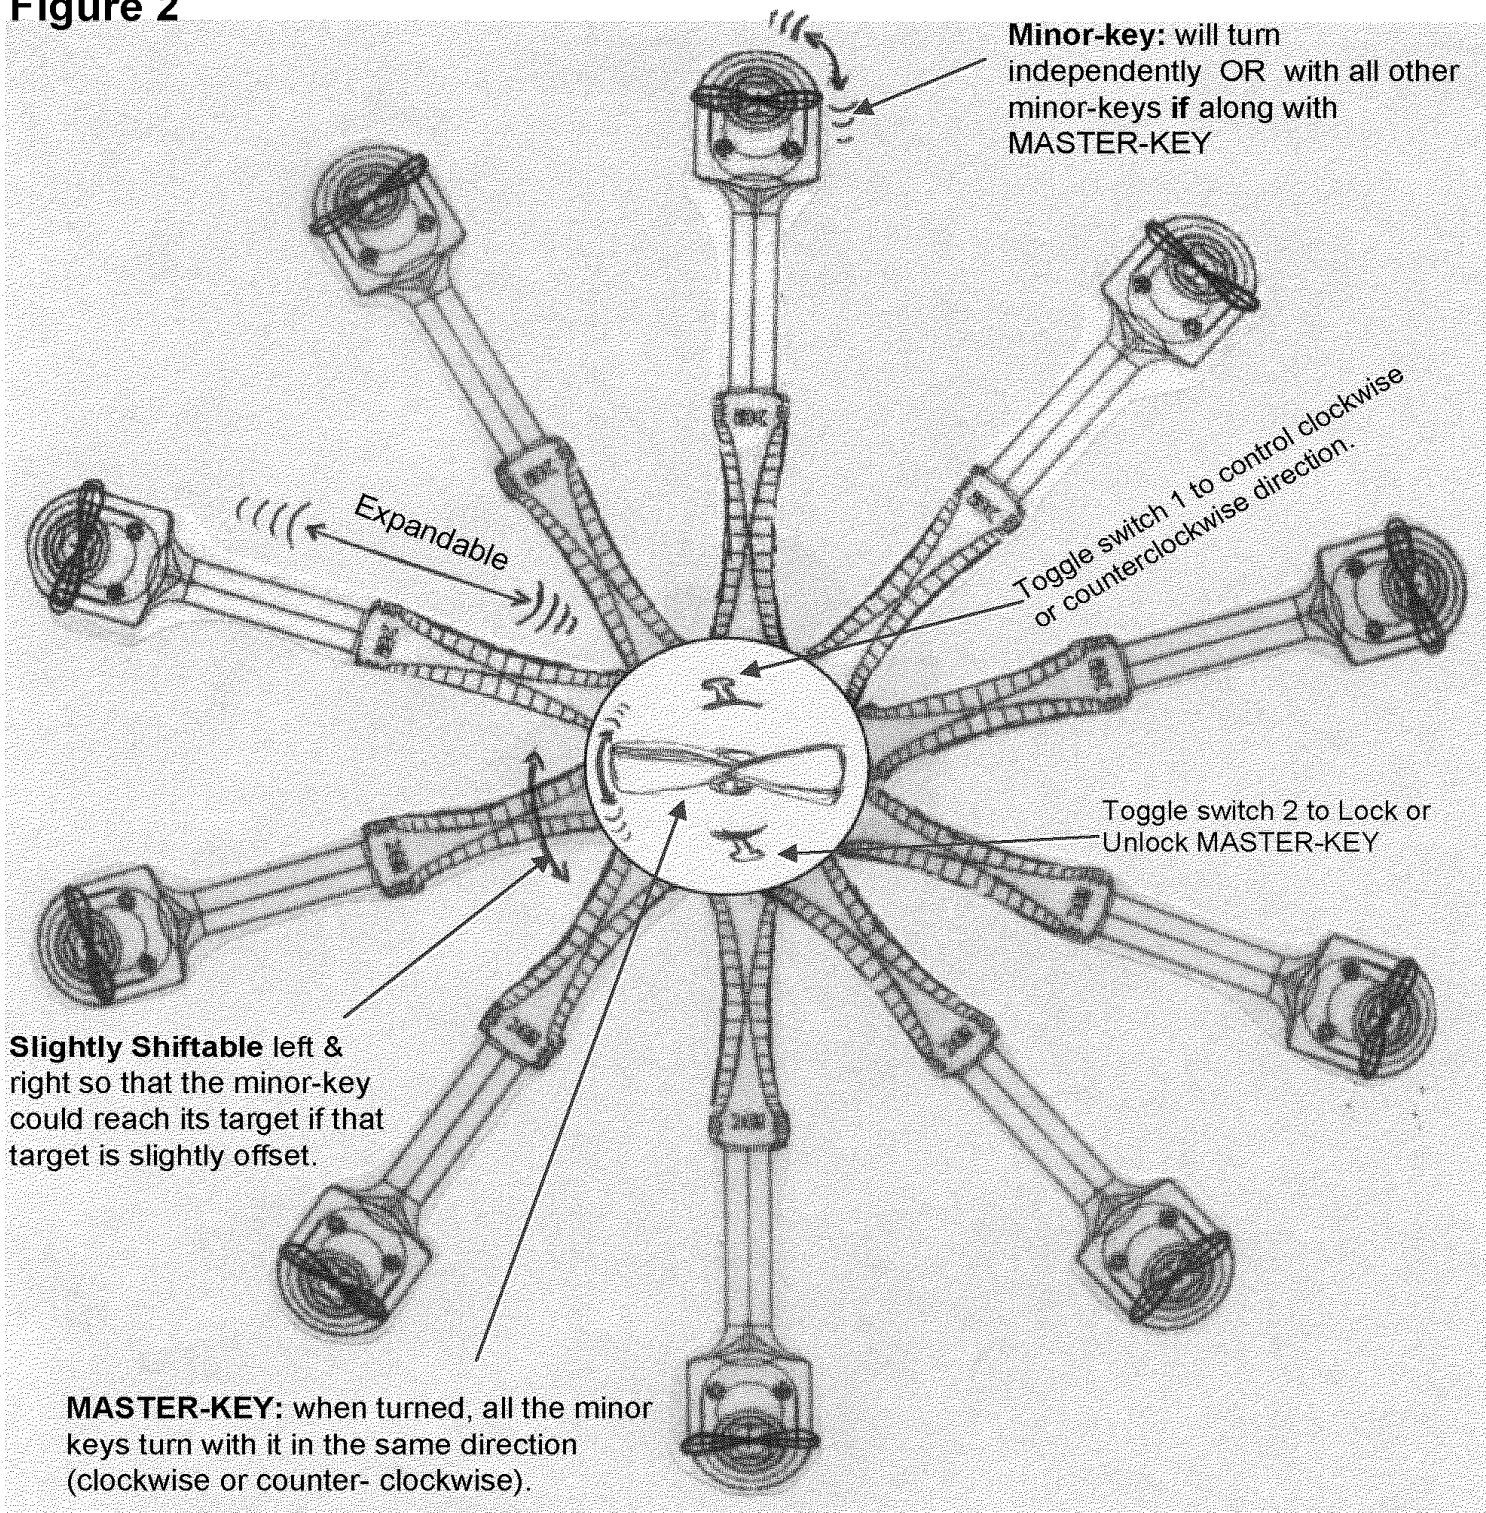

Figure 1:

(Fig. 1B - A Standard Drum Key)

Figure 2

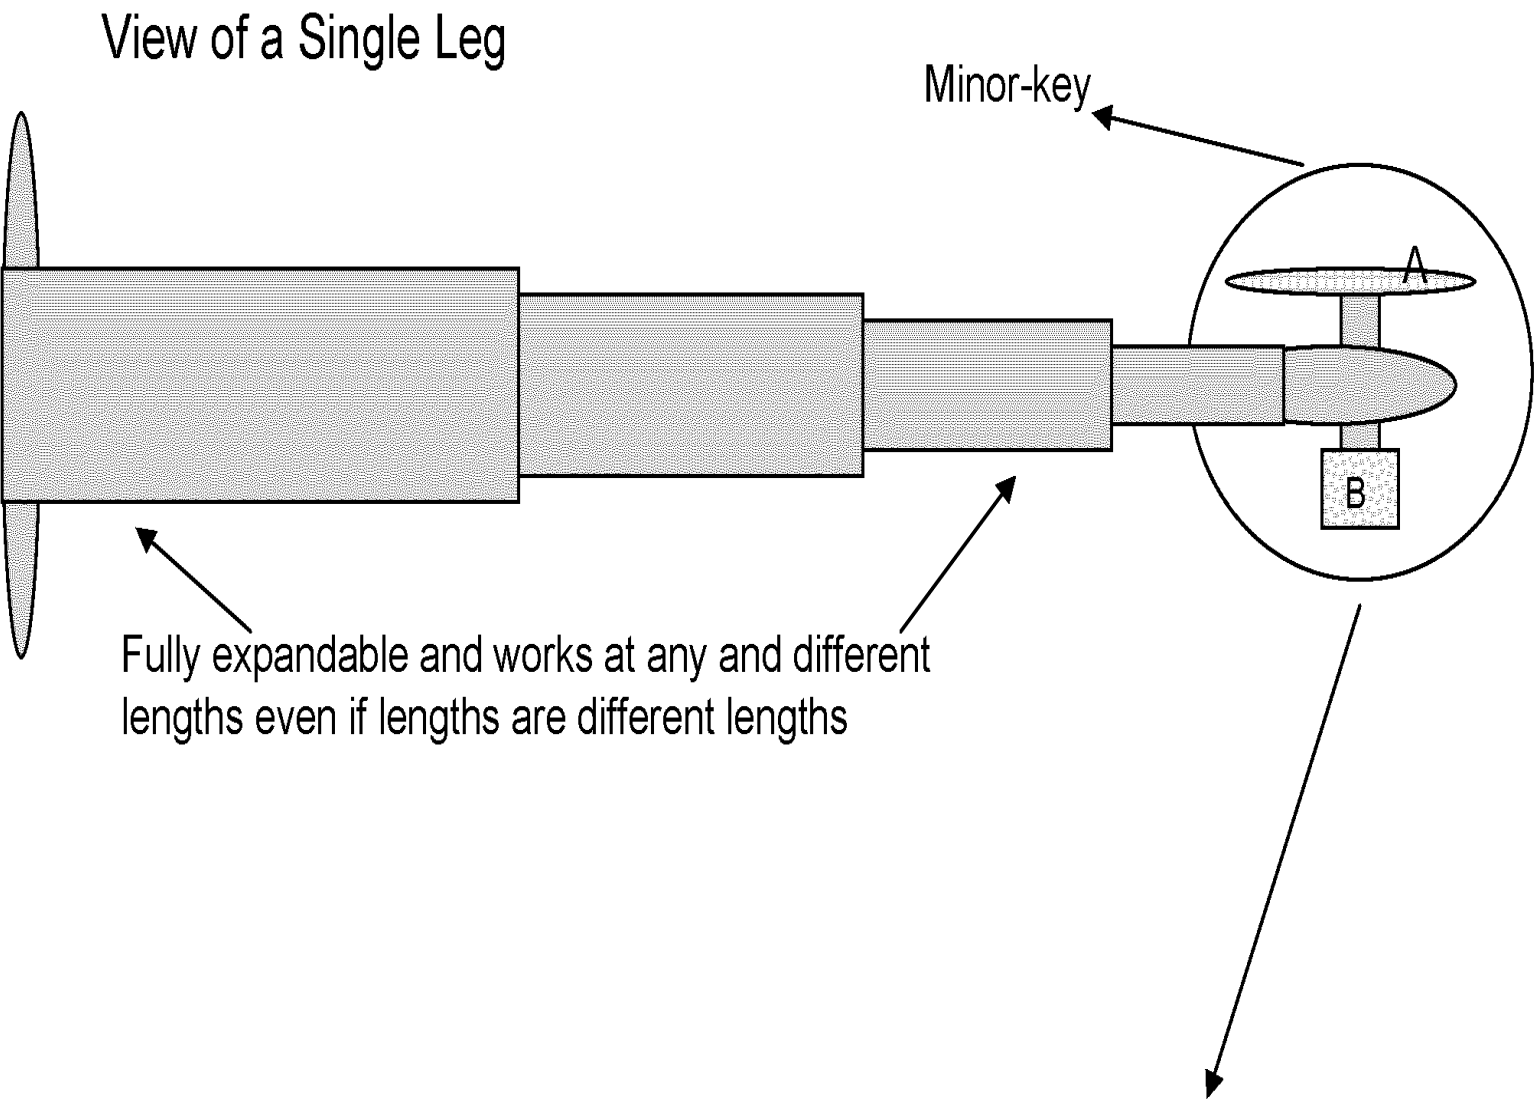

MASTER-KEY: When Locked, Controls all Minor-keys; when turned all minor-keys turn accordingly. When Unlocked, Minor-keys work independently of MASTER-KEY & other Minor-keys.

Minor-keys: Are dependent on MASTER-KEY when MASTER-KEY is locked. When MASTER-KEY is Unlocked, Minor-keys work independently of MASTER-KEY & other Minor-keys.

Toggle switch 1 - Controls clockwise or counterclockwise direction.

Toggle switch 2 - Locks or Unlocks MASTER-KEY

Figure 3

- A – Minor-Key Turning Knob
- B – Fits over the lug of a drum
- C – Similar to a standard drum key (see fig. 1B)

Fig. 4

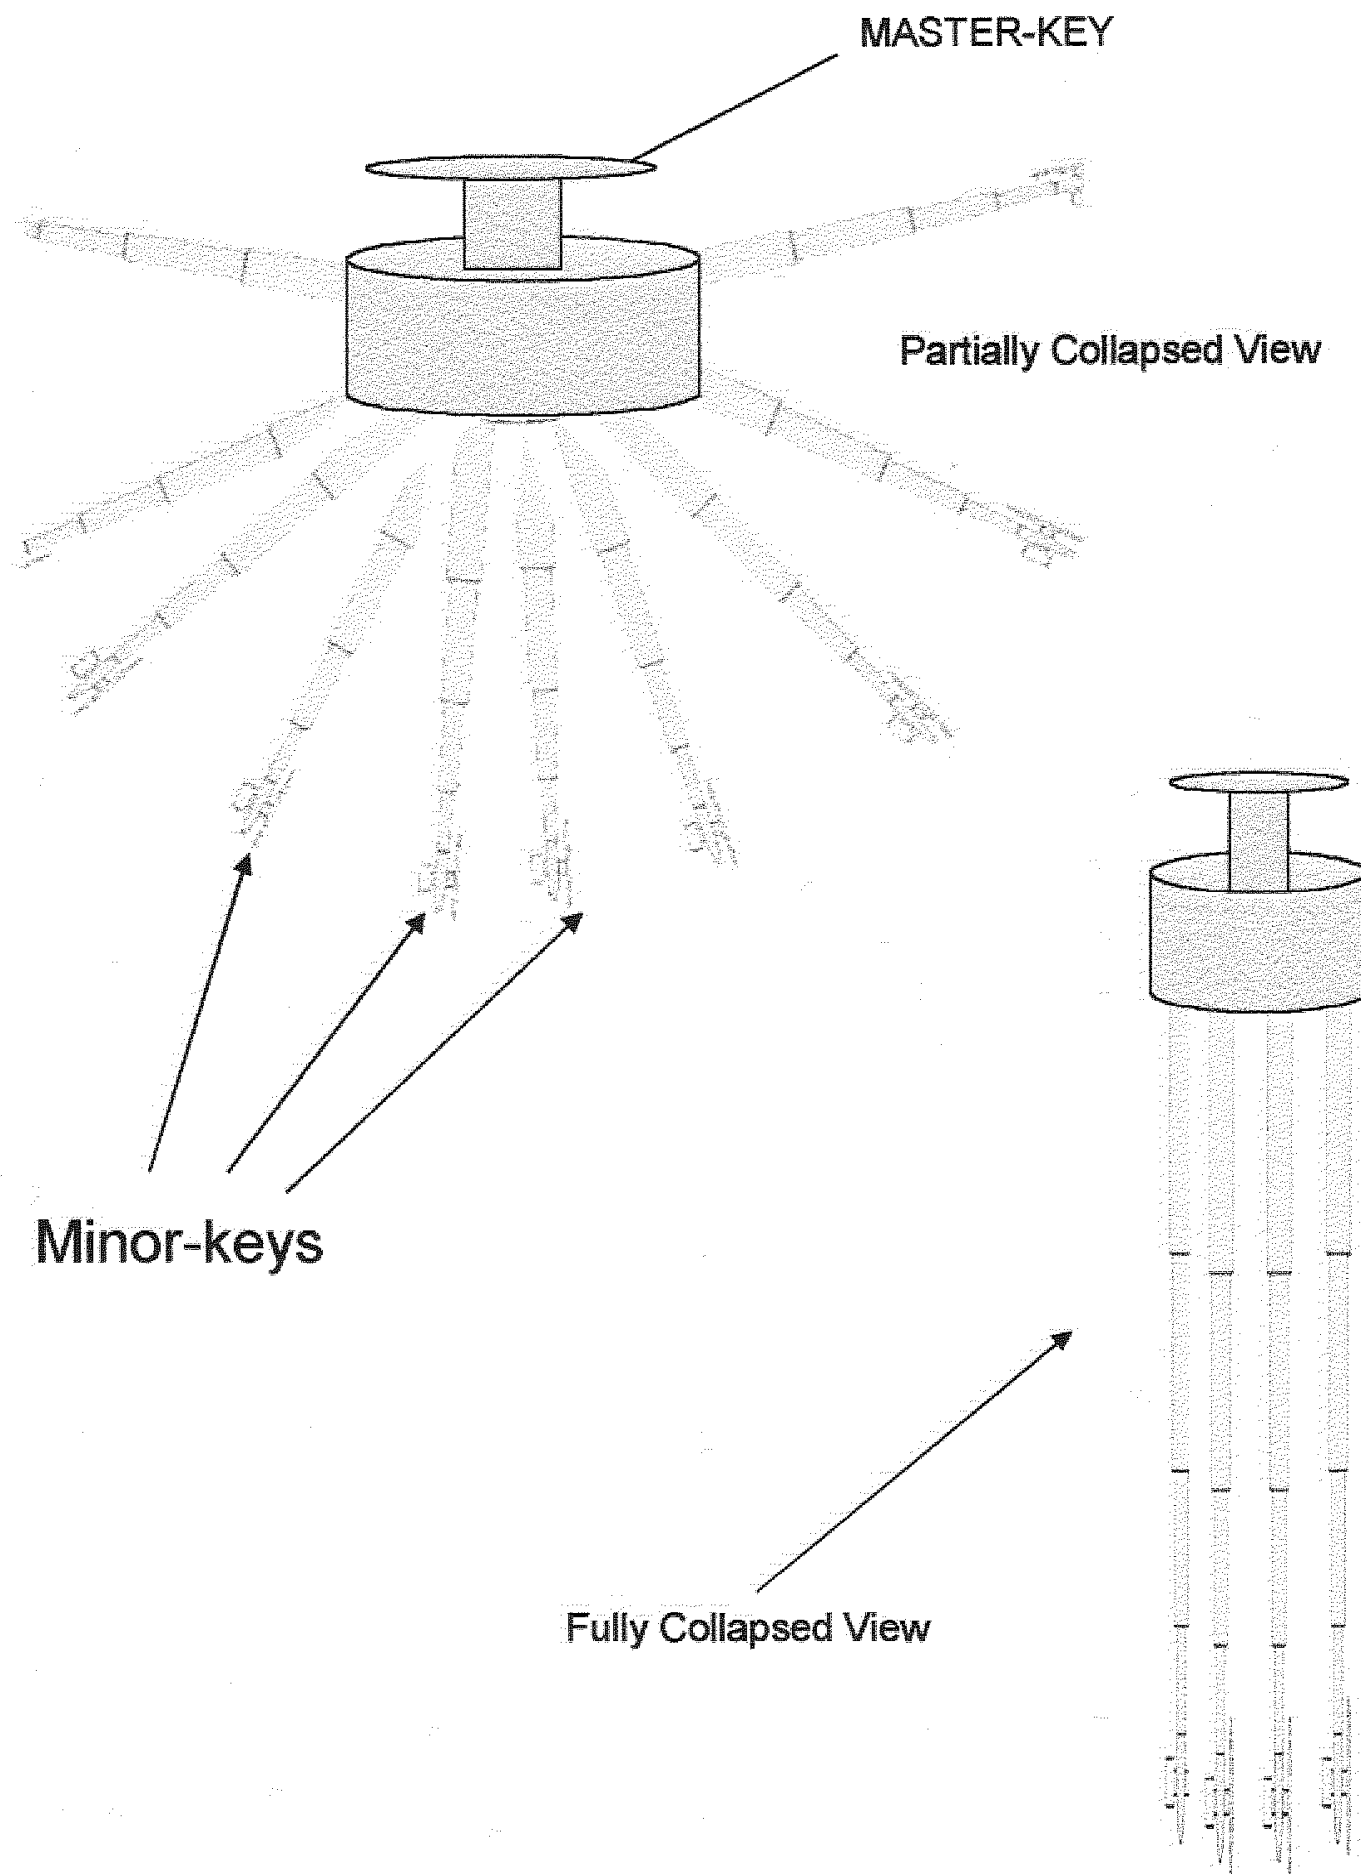

Figure 5

MASTER-KEY: When Locked, Controls all Minor-keys; when turned all minor-keys turn accordingly. When Unlocked, Minor-keys work independently of MASTER-KEY & other Minor-keys.
